

Whirld Sports

Golf, in its high standards of integrity, sportsmanship, and self-control, is a game of distinct honor amongst sports . The sport of Disc Golf is propelling these attributes into the future with a more colorful, three-dimensional, and dynamic version of that great and noble game.

Our goal is to enhance the appeal of the sport of disc golf to all ages and therefore increase its participation around the globe.

We believe our technical gear will improve the overall player experience, increase the skill, and heighten the level of enjoyment for all players.

Making the Whirld Better™ is not just our goal; it is our intent, and we would be honored if you would join us in this pursuit.

NexTEE Indicators™

Installs on any standard basket.

Have you ever been to a course where you've had trouble knowing exactly where each tee was from the basket you just played? Maybe your course is like that, or maybe you have multiple pin placements and it can be a little confusing to newer players or traveling pros who visit. Whatever the case, WhirlD Sports believes that the sport of disc golf is only going to reach its full potential if courses become more user-friendly.

Installing the NexTEE Indicators™ on your course will permanently solve one very frustrating problem. Lead the way and end the confusion.

Built to Last!

The NexTEE's are designed to fit any standard basket/sleeve combination and are secured in place when the basket is locked. They are constructed of galvanized steel and are built to last. Great care was taken to reduce it's profile on the basket and the vinyl coating will minimize any potential damage to discs. It was very important to us that we create a product that becomes a part of the basket, yet is visible enough to serve its purpose...leading golfers on their way to the next tee pad.

Why the NexTEE™ is Better

For years, many attempts have been made to try and solve this common problem...spray paint on the grass, painted rocks or bricks, multi-colored tape on the spokes of the basket, etc. Though they work for a time, they offer new problems in maintenance and appearance, which becomes all the more complicated when you have multiple pin placements. NexTEE Indicators™ are a permanent,

NexTEE™ Indicator at the International Disc Golf Center in Appling, GA.

professional solution. They stay with the basket as it moves from position to position and can be instantly adjusted to always point in the right direction. TD's and course directors can easily change the course lay out from one day to the next

NexTEE™ Indicators have been installed on all 3 courses in Springfield, IL

without ever having to worry about a visitor getting confused and frustrated.

Invest in the future of disc golf and make your course better for everyone. Take the time to visit our website today. Call us if you have any questions about how we can help you "Lead the Way."
